

# **AWE TUNING** 2008-> Porsche 997 GT2 INNOVATION | DESIGN | COMPETITION **AWE Tuning Exhaust Muffler**

Congratulations on your purchase of the AWE Tuning Exhaust System for 08-> 997 GT2. Exquisite hand built quality with industry leading performance distinguishes this exhaust system from all others.

## Estimated install time:

3.0- 4.0 hrs

## Parts list:

1	exhaust muffler can	2	bracket plate
2	catalytic converter section	4	copper lock nuts—bracket
2	tailpipe section	8	exhaust to turbo nut
2	AWE Tuning exhaust tip	4	8x1.25x22mm long bolt
4	3.0" stainless steel band clamp	8	8mm M8 washer
2	3.125" hi-temp t-bolt clamp	2	exhaust to turbo gasket

## Installation of this exhaust system is very straight forward.

Installation of this exhaust can be completed on jack stands or ramps. Never work under a vehicle only supported by a jack. If you do not feel comfortable installing this system yourself, contact a local professional for installation.

### Installation notes:

1. Before removing the factory muffler, liberally spray the turbo to muffler fasteners with a rust penetrant and let them soak for several hours.
2. Install muffler can according to Figure 1. Please note that the enclosed bolts are inserted from behind the welded bracket (arrow A) and then through the bracket plate (arrow C), sandwiching the factory support (arrow B). Use the enclosed washers and nuts (arrow D) and torque to 30 ftlbs.
3. The tailpipes exiting the mufflers are adjustable to ensure proper and even placement in the rear valance openings. Use the enclosed 3.125" t-bolt clamps to fasten the AWE Tuning enclosed tips to the tailpipes. Adjust the tips for length and rotation before tightening.

Figure 1

If resonance is encountered during part throttle driving, recheck the tightness of the muffler brackets. The fasteners need to be tightened to a minimum of 30 ftlbs to avoid a resonance harmonic.

The sound of the exhaust will even out after a few hundred miles of driving, providing a more consistent tone throughout the rpm range.

Thank you for choosing A.W.E. Tuning as your performance automotive parts supplier. Please remember that a performance car is only as strong as its weakest link. Therefore, it is vital that you maintain your vehicle to factory specifications.

**By installing or using the purchased product, the Consumer accepts this warranty and any specific Manufacturer warranties enclosed.**

### ***Limited Warranty***

The following warranty is valid only in the United States.

The Manufacturer's full warranty applies to all products sold.

Secor Ltd. (A.W.E. Tuning) warrants to the original retail purchaser (Consumer):

One year on catalytic converter sections  
LIFETIME on balance of system components

Upon verification of warranty coverage, A.W.E. Tuning will repair or replace the defective product at their discretion, without charge. This is the only remedy the Consumer has for any loss or damage, however arising, due to nonconformity in or defect of the product. This warranty does not cover consequential damage, loss of time or revenues, inconvenience, loss of use of vehicle, damage to the vehicle or components, or other incidental or indirect damage.

All warranties are void if the product was not installed by a certified auto mechanic, improperly serviced, modified, or used in a way not intended by the Manufacturer. Use of product in Motorsports or Racing conditions is grounds for warranty denial. Motorsports and Racing is an inherently abusive operational condition, and it is impossible to warranty for this type of usage.

The Consumer is responsible for ensuring that the product is installed in a safe and proper manner, and should cease usage of the product immediately if an unsafe or improper condition is noted. If an unsafe or improper condition is noted, the Consumer should then immediately contact the facility where the product was installed or A.W.E. Tuning directly.

Please contact the original place of purchase for any warranty claims or explanations of this document.
