

Thank you for your purchase of the AWE Tuning High Flow B6/B7 S4 Downpipes. We believe you have purchased the finest quality and best performing S4 downpipes available. Extensive flow testing of the Audi S4 exhaust has resulted in the system you hold before you.

Included with your downpipes:

- 2 Stainless steel upper downpipe sections with 200 cell metal core catalyts
- 2 Stainless steel lower downpipe sections
- 2 Stainless steel band clamps
- 1 8mmx1.25 nut and washer

Installation of your downpipes is basically no different than replacing the stock units. We highly suggest you consult the factory service manual to familiarize yourself with the steps required to install your downpipes, or consult a local shop for professional installation.

Install tips:

1. Loosely bolt the upper downpipe sections to the exhaust manifolds.
2. On both sides of trans, reassemble bracket mount assemblies as shown in exploded diagram Figure 1. Bracket on downpipe is located at arrow A. An enclosed 8mm nut is used on driver side and OEM nut on passenger side (at arrow B in Figure 1).
3. Loosely install the downpipe to trans bracket mounts. The passenger side downpipe to trans bracket mount must be reoriented for use with the AWE downpipes. Move mount from bolt hole at arrow A to bolt hole at arrow B in Figure 2 on passenger side.
4. Tighten the downpipe to exhaust manifold fasteners. Make sure that the upper downpipe flanges remain "square" to the exhaust manifold flanges as the fasteners are tightened. Tighten the fasteners evenly in a clockwise rotation, or else the flanges may have uneven gaps between them, which will result in an exhaust leak at that location. Then fully tighten trans bracket mount fasteners.
5. Pay close attention to the oxygen sensor wiring to make sure that it is not interfering with any hot or moving object, such as the center drive axle. Rotate the lower sections if needed.
6. After prolonged usage, the downpipes will turn a light brown color. Before initial usage, wipe down the downpipes with a non residue cleaner, like brake clean, to minimize the change in color.

Thank you for choosing A.W.E. Tuning as your performance automotive parts supplier. Please remember that a performance car is only as strong as its weakest link. Therefore, it is vital that you maintain your vehicle to factory specifications.

By installing or using the purchased product, the Consumer accepts this warranty and any specific Manufacturer warranties enclosed.

Limited Warranty

The following warranty is valid only in the United States.

The Manufacturer's full warranty applies to all products sold.

Secor Ltd. (A.W.E. Tuning) warrants to the original retail purchaser (Consumer):

1 year on catalytic converter sections
LIFETIME on balance of system components

Upon verification of warranty coverage, A.W.E. Tuning will repair or replace the defective product at their discretion, without charge. This is the only remedy the Consumer has for any loss or damage, however arising, due to nonconformity in or defect of the product. This warranty does not cover consequential damage, loss of time or revenues, inconvenience, loss of use of vehicle, damage to the vehicle or components, or other incidental or indirect damage.

All warranties are void if the product was not installed by a certified auto mechanic, improperly serviced, modified, or used in a way not intended by the Manufacturer. Use of product in Motorsports or Racing conditions is grounds for warranty denial. Motorsports and Racing is an inherently abusive operational condition, and it is impossible to warranty for this type of usage.

The Consumer is responsible for ensuring that the product is installed in a safe and proper manner, and should cease usage of the product immediately if an unsafe or improper condition is noted. If an unsafe or improper condition is noted, the Consumer should then immediately contact the facility where the product was installed or A.W.E. Tuning directly.

Please contact the original place of purchase for any warranty claims or explanations of this document.
